Convention-The Pertion of the Rata Measure-The Browbeating OUR SPECIAL ALBANY DESPATCH.

ALBANY, Feb. 28, 1860.

The change of day for holding the Chicago Convention, am June until the 16th of May, by the National Commite, has created a universal satisfaction among the repubrans here. One would think, from their general exube-

Mr. Garretson of Dutchess, made a lengthy speech against the bill this morning, denouncing the Clinton League and the rufflanly mode of argument on the floor of the House.

He was followed by Mr. Elisworth, from Saratoga, in layor of the bill. He thought the real party or wire-puller in this discrimination is the money power in New York, which had joined hands with the Western States against the citizens of this State, and that all who voted against it would record their own political epitaph. All who voted against the bill, he thought, would vote in favor of the city of New York oppressing the people of the State. There was such a thing as poing too far in their feelings in favor of the city of New York, and favoring an unlawful aggrandizement of the clinens of the city of New York over the friends of the Albany and Susquehanna Railroad to go for this measure, if they wanted to carry theirs, and also to the friends of the Chenango Canal, stating that it was the money power of New York that stood in their way—stand by the people of the western part of the State, and also yould be in the right road to obtain their canal. Let all of those who are here from the rural districts by according to the mention of the state, and they would be in the right road to obtain their canal. Let all of those who are here from the rural districts by according to the mention of the speech the floures took a recess and a quarter past three o clock.

regretted that no person had explained the provisions of this bill.

Mr. Ocoper replied to the remarks of Mr. Elisworth.

When the vote was taken to strike out the enacting clause it was lost—yeas 34, nays 53.

The Committee ther rose and recommended the passage of the bill, by yeas 63, nays 12.

A motion to strike out the Northern and Potsdam road was last, and on the vote upon accepting the report of the Committee the yeas and nays were called and resulted as follows:—yeas 66; nays 39. Mr. Tucker, of your city, and Messrs. Myers, Jones and Fisher, of Brooklyn, voted in favor of the bill.

The bill will be read the third time to morrow. Pro Rata stock is at fever heat to-night. A great deal has been said about the Rochester millers, but the bill as it now stands will operate in favor of Cowego, to the detriment of all points west.

The Senate had under consideration to-day, and passed finally, a number of bills, mostly local. They incorporated two axings banks—one for the city of New York, and the Chenango Savings Bank. They also passed the bill to protect the rights and property of married women. A number of other bills were considered in Committee of the Whole.

It is the custom of Thurlow Weed to have a party during

the winter, at which he invites the members of the Legis-iature, irrespective of party. He usually has one half of them one night and the other half the following week, in-viting them in alphabetical order. The first half are in-vited to-night, and I learn that there will be a general at-

Mr. BINGHAM (rep.) spoke in favor of the bill, replying to the legal portion of Mr. Robinson's argument of last night, and maintaining the right of the Legislature to pass

principles of the bill, as unjust, impracticable and dangerous to the commercial prosperity of the State.

Mr. VAN HOUN (rep.) made a careful and elaborate argument in favor of the bill, taking the broad ground that the principle was just, and that fears of competition from rival routes were groundless.

Mr. GARRETTHON (dem.) followed in a speech against the bill.

Mr. Garrettsow (dem.) followed in a speech against the bill.

The debate on the Pro Rata bill continued during the entire session, Messrs. Savage, Decker and Palmer, who had not before spoken, taking part against the bill, in addition to Messra. Cooper, Merritt, Milliken and others, who spoke again in opposition. Mr. Plagler, the Speaker, Mr. Elisworth, Mr. O. Allen and others supported the bill.

A motion to strike out the enacting clause was lost by a vote of 3450 58.

On motion of Mr. Barrett, the bill was then amended so as to extend the sliding scale by making freight carried on distances less than two hundred miles pay ten per cust, and under five hundred miles tive per cent over through rates.
